

SDG12 – SUSTAINABLE
CONSUMPTION AND
PRODUCTION

CONCISE GUIDES TO THE UNITED NATIONS SUSTAINABLE DEVELOPMENT GOALS

Series Editors

Walter Leal Filho

World Sustainable Development Research and Transfer
Centre, Hamburg University of Applied Sciences

Mark Mifsud

Centre for Environmental Education and Research, University
of Malta

This series comprises 17 short books, each examining one of the UN Sustainable Development Goals (SDGs).

The series provides an integrated assessment of the SDGs from an economic, social, environmental, and cultural perspective. Books in the series critically analyze and assess the SDGs from a multi-disciplinary and a multi-regional standpoint, with each title demonstrating innovation in theoretical and empirical analysis, methodology and application of the SDG concerned.

Titles in this series have a particular focus on the means to implement the SDGs, and each one includes a short introduction to the SDG in question along with a synopsis of their implications on the economic, social, environmental, and cultural domains.

SDG12 – SUSTAINABLE CONSUMPTION AND PRODUCTION

A Revolutionary Challenge
for the 21st Century

BY

JENNIFER MOORE BERNSTEIN

INVESTOR IN PEOPLE

We dedicate this book to our children – Ava S. Irmischer, Dylan E. Irmischer, and Wesley O. Vos – in hopes that they may inherit a world where human and biophysical life thrive and are protected with a greater passion than material wealth.

ABOUT THE AUTHORS

Dr. Jennifer Moore Bernstein is a full-time lecturer at the Spatial Sciences Institute at the University of Southern California (USC). She holds an M.A. in Geography from UC Santa Barbara, an M.S. in Science Education from Montana State Bozeman, and a Ph.D. from the University of Hawaii at Manoa. Her research primarily looks at the contemporary environmental movement and the way it intersects with issues of social justice. She has been published in multiple academic journals as well as the Washington Post, the San Francisco Chronicle, and The Conversation. She is a 2020-2021 UCGIS TRELIS Fellow and a Senior Fellow at the Breakthrough Institute. Her most well-known publication is the 2017 article, *Mother Earth and Earth Mothers: Why Environmentalism has a Gender Problem*.

Dr. Robert O. Vos is Associate Professor (Teaching) and Director of Graduate Studies at the Spatial Sciences Institute at the University of Southern California. He holds an M.A. and Ph.D. in Political Science from USC and is a Certified GIS Professional (GISP). He is an expert in sustainability science with a 20-year career that spans teaching, research, and practice in sustainability theory, sustainable cities, environmental justice, and industrial ecology. His research and corporate consulting practice focus on sustainable consumer products and spatially explicit life cycle assessment. Award-winning publications

include a 1997 co-edited book, *Flashpoints in Environmental Policymaking: Controversies in Achieving Sustainability* and a 2019 article, *The Spatially Explicit Water Footprint of Blue Jeans*.

ACKNOWLEDGMENTS

We would like to thank the editors at Emerald Press for their patience, especially Mark Mifsud, as we struggled to meet deadlines while coping with shifts in teaching and research related to the Covid-19 global pandemic. We would also like to thank the staff and our colleagues at the University of Southern California's Spatial Sciences Institute, who supported us through the process and who consistently encourage us use spatial thinking to address humanitarian and environmental problems. We must also thank two students for their extraordinarily fast and probing work with scholarly research in support of our effort. Cameron Audras was in his senior year at the University of Southern California's Environmental Studies Program and joined us for courses and research activity at the Spatial Sciences Institute in Academic Year 2020-2021. Andrea Mauro graduated from USC's Environmental Studies Program in May 2020 and joined us at the start of her journey in a career on circular economies. Our meetings with them and their digging in scholarly archives kept us tethered to literature, trends, and facts around SDG 12.

We would also like to express our immense gratitude to our families and other caregivers who coped with our absences as we cloistered ourselves away for research and writing. Their support was crucial. Robert O. Vos would especially like to thank Vivian Liu. Jennifer M. Bernstein would like to thank Richard and Mary Bernstein. We could not have done it without you.
