

INDEX

- 'aha' effect, 131
- Authoritarian model, 69, 72
- Authoritarianism, 68
- 'Bed blocking', 8
- 'Black box'
 - of integration, 99
 - problem, 33–36, 126
 - research, 33
 - study design, 127
- Bottom up integrated care
 - initiatives, 99
- Bottom up integration, 14, 19, 60, 98
- Budget constraints, 20
- Care integration, 45, 85–87
 - CAS, 58
 - integrating services, 57
 - integration of services, 60
 - liminality and health service changes, 49–53
 - moral import of healthcare, 59
 - notion of liminality, 46–49
 - tacit assumptions in, 3, 57
- 'Clinical commissioning groups', 48
- Complex adaptive system (CAS), 31, 34, 58
 - in integration research, 35–37
- Complexity, 33–35
 - CAS in integration research, 35–37
 - implications for integration theory, 34–35
 - implications for research, 37–39
 - and social science research paradigm, 32–34
 - theory, 31
- Conflict in integration
 - programmes, 65–66
- Contingency theory, 14–15, 82
- Control group, 32–33
- Control models, 21–22
- Corporate organizations, 21
- COVID-19, 7–9
- 'Craft', 81
- Culture, 88–89
- Decision making, 102
 - authority, 23
 - autonomous, 22
 - care pathways in, 102
 - joint, 132
 - processes, 23
- Design
 - principles, 26
 - process, 21
 - work, 20
- 'Disenchantment', 58
- Emergence, 82
- English health care systems, 48
- English national policy, 20
- Environmental factors, 32
- Epistemology, 1, 110, 114
- Evidence-based medicine, 87–88
- General Theory of Implementation, 48

- Health care, 48
 - change in, 50
 - political theory of change in, 64–65
- Health systems, 95
- Implementation science, 49
- Integrated care, 1, 95, 109, 128
 - COVID-19, 7
 - future of, 13, 102–103
 - integration, 2, 97–99, 117–119
 - integration as paradigm, 112–117
 - investigating integration, 99–101
 - Kuhn’s paradigm of scientific theory, 111–112
 - Kuhn’s structure of scientific revolutions, 110–111
 - mechanism, 2
 - organisational sociology, 3
 - pandemic and, 8–11
 - Valentijn’s model, 96
 - value in integrated care, 101–102
- Integrated Care Systems (ICS), 48, 72–73
- Integrating services, 57
- Integration, 2, 83, 97–99
 - care integration, 85–87
 - ‘craft’, 81
 - foci of, 34
 - organisational change, 84–85
 - as paradigm, 112–117
 - programmes, 69, 86
 - routines as stabilising factors, 87–90
 - as science, 81–84
 - social action theory, 84–85
 - system theory, 85–87
 - values, power and conflict in, 65–66
- Integration theory, implications for, 34–35
- Intensive care unit (ICU), 7
- Intervention group, 33
- Kuhn, Thomas, 109
 - paradigm of scientific theory, 111–112
 - structure of scientific revolutions, 110–111
- Labour Government in England, 125
- ‘Leadership’, 59
- Liberal approach, 67
- Liberal model, 67
- Liberalism, 70
- Liminality
 - and health service changes, 49–53
 - notion of, 46–49
- Luhmann’s theory of systems, 86
- Medical Research Council (MRC), 126
- ‘Memory of practice’, 88
- ‘Mutual adjustment behaviour’, 22
- Normalisation process theory, 48
- Northern Ireland health service, 83
- Ohm’s law, 115
- Ontology, 1
- Organisation theory, 13
 - in health studies, 14
 - integration policies, 15
 - integration processes, 16
 - organisational change, 17
 - resource dependence theory, 15
- Organisational belonging, 84
- Organisational change, 84–85
- Organisational culture, 88
- Organisational design
 - decision making processes, 23
 - design principles, 26
 - empirical claim, 25
 - integrated care in UK, 19
 - ‘mutual adjustment behaviour’, 22
 - nature of activity, 20

- organisational design theory, 21
- production process, 21
- Rainbow Model, 24
- Vanguard programme, 20
- Organisational management approaches, 125
- Organisational theorists, 21, 23
- Pandemic and integrated care, 8–11
- Parsons' theory of social action, 84
- Patient journey maps, 132, 134–135
- Patient satisfaction, 129
- Patient-centred care, 125
 - integrated care programmes, 127
 - integration research, 130
 - methodological approaches, 126
 - organisational and management model, 128
 - patient journey, 131–135
 - patient satisfaction, 129
 - realism, 127
- Pay attention, 52
- Person centred care approaches, 26
- Pharm tech, 52
- Policy statements, 73
- Political dimension of integration programmes, 65
- Political science, 46
- Political theory, 63–64, 72–74
 - of change in health care, 64–65
- Politics of integrating services, 63, 72
 - political thought, 66–71
 - values, power and conflict in integration programmes, 65–66
- Power in integration programmes, 65–66
- Q methodology, 115
- Quality improvement, 85
- Quality of care, 58, 116, 129
- Quasi-experimental designs, 32
- Radical-utopian model, 63
- Rainbow Model, 1–2
 - of integration, 10
- Random allocation, 32
- Randomised controlled trials, 33
- Realism, 127–128
- Reciprocity, 72
- Resource dependence theory, 15, 16
- Routines as stabilising factors, 87–90
- Routinisation, 86
- SARS-COV-2, 9
- Service integration, 57
- Service planners, 133
- Social action theory, 3, 84–85
- Social care, 48
- Social equilibrium, 84
- Social science research paradigm, 32–34, 35, 37
- Sophistication, 49
- Span of Central Direction, The, 21
- Structural framework of care integration, 59
- Structure of Scientific Revolutions, The* (Kuhn), 109
- System theory, 85–87
- Task uncertainty, 23
- Theories of change, 49
- Top down approach, 14, 19
- Traditional 'gold standard' research designs, 33
- Valentijn's model, 96
- Values in integration programmes, 65–66
- Vanguard programme, 20, 98–99
- Veil of ignorance, 49
