

# Index

- Activity for Health, 123
- Agritech ecosystems, 33
- Alzheimer's disease, 51–52
- Amazon, 11–12
- Amazon's *Just Walk Out* technology, 81
- Anthropocene, 55–56
- Anthropogenic mass, 16
- Apprenticeship, 26
- Artefacts, intelligence of, 18–20
- Artificial intelligence (AI), 1, 5, 35, 39, 90
- Assembly lines, advent of, 26
- Augmented reality, 12
- Autistic spectrum, 51–52
- Behavioural science, 39
- Big Data, 14, 27, 90
- Big Science, 88
- Bio Bot Analytics, 85
- Bioengineers study, 35
- Biological engineering, 83
- Biomaterials, 35
- Blockchain, 49–51
- Body and mind, 52–54
- Buffalo Grid project, 52–53
- Burning Platform, 81
- Business ecosystems as innovation ecosystems, 96
- Carmakers, 29
- Causal Code (CC), 100
- Centers for Disease Control and Prevention (CDC), 86
- Circular economy, 66–67
- Circular Economy Action Plan (CEAP), 67
- Climate change, 56
- Cloud computing, 12
- Community/communities, 83
  - banks, 74
  - engagement, 83
  - resilience, 125–126
- Contamination Lab, 38
- Control mechanisms, 105
- Coronavirus disease 2019 (COVID-19), 46, 83, 85, 90, 113–114
  - crisis, 80
  - examples of COVID-19
    - collaborations, 82–83
    - innovation and, 81–82
    - innovation in aftermath of, 79–81
    - mobilising SDG impact investment finance to support COVID-19 response, 126
    - pandemic, 45, 84
    - role of digital health, 122
    - silver economic boom through our recovery from, 122
    - vaccine, 44–45, 81–82
  - 'Cradle back to cradle' paradigm, 66
- Creative thinking, 46–47
- Dark Matter institutional design company, 73
- Data analytics, 83
- Data management, 35
- Data science, 1, 39
- Deloitte Centre for Health Solutions, 49
- Dementia, 51–52
- Design out waste (DoW), 66
- Diabetics, 86–87
- Diffusion of innovations in TE, 98–99
- Digital health role to help us build trust after COVID-19, 122

- Digital healthcare within decade of medicine and health and wellness management, significance and future of, 48–51
- Digital platforms, 11–12
- Digitalisation of healthcare services, 83
- Disease management to well-being economy, transitioning from, 120–121
- Doughnut economy, 60–61
- Drug approval process, 84
  
- Earth's natural ecosystems, 55–56
- Eco-innovation niches, 67–68
- Ecological Finance Theory, 69–72
- Economic policies, 4
- Economy
  - mainstream vision of, 9–11
  - transformative enterprise's vision of, 12–14
- Ecosystem strategies, 96
- Education, 81
  - for transformative entrepreneurship, 36–38
- Energy, 62–63
- Entitlements, 123
- Environmental, Social And Governance (ESG), 68
- Europe OR, 95–96
  - as emerging innovators, 97–98
  - healthcare innovation ecosystem in, 100–102
- European Commission's Circular Economy Package, 67
- European Federation of Pharmaceutical Industries and Associations, 83
- European Union (EU), 47, 72–73, 95
  - Clinical Trials Regulation, 84
- Extractive economic model, 60
  
- Facebook, 11–12
- Ferments of Industry 4.0, 20–23
- Ferrari, 29
- Finance, role of impact, 69–74
- 5G connectivity, 12
- Flemish Institute for Technological Research, 58–59
- Fourth Industrial Revolution (4IR), 67–68
- Freedoms, 123
  
- Gapponshugi, 13–14
- Gender equality, 121
- General Practitioners (GPs), 81
- Geo-engineering solutions, 60
- Gestational Diabetes, 121
- Global Pregnancy, 120–121
- Global social prescribing alliance, 117
  - founding members, 118–119
  - six principles, 118–119
- Global warming, 56
- Great Transformation, 1
- Green Economy, 60–61
- Green Revolution, 58–59
  
- Healing process, 60
- Health
  - activity for, 123
  - empower citizens to navigate own, 121
  - human right, 122–123
  - regulators, 84
  - values, 33–34
  - and wellness, 53–54
- Health Literacy, 121
- Health Services, 46–47
- Health-type groups, 48
- Healthcare
  - experimenting on crest of transformational wave in, 33–36
  - industry, 86–87
  - new journeys of discovery in healthcare and medicine starting in intensive care, 46
  - systems, 113
- Healthcare innovation ecosystems
  - analysis results, 103
  - business ecosystems as innovation ecosystems, 96

- diffusion of innovations in TE, 98–99
- in Europe OR, 100–102
- Europe's outermost regions as emerging innovators, 97–98
- innovation ecosystems as transformative enterprises, 96–97
