- Apache Kafka, 60
- Apache Spark, 59
- Application programming
  - interface (API), 72, 131
- Architecture of data, 69
- Archive tables (ATs), 84
- Archive templates, 86
- Archiving of data, 78, 84–86
- Artificial intelligence (AI), 29
- Assets, 58, 132
  - steps in creating assets in
    - curated zone, 134
  - steps in creating assets in raw
    - zone, 133
- Audit, 126
- Augmented analytics, 99
- Autonomous database, 35
- Autonomous homogeneous
  - DDBMS, 46
- Backup storage, 83
- Banking, data silos in, 113–115
- Behavioral metadata, 96
- Big Data, 28
- Big Data Analytics, 67
- BigQuery, 57, 59
- Business intelligence (BI), 91
- Business uses, 99
- Business-to-business (B2B), 33
- Business-to-customer (B2C), 33
- CCPA, 36
- Center of Excellence (CoE), 72–73
- Centralized DBMS, 40–41
- Choice, 4
- Client satisfaction, 112
- Clinical decision method, 21
- Clinical reasoning, 21
- Cloud computing, 29
- Cloud silos, 107
- Cloud storage, 83
- Cloud-based apps and systems,
  - 108
- Codes of conduct, 30
- Cognitive intuition, 3–4
- Collection of data, 77–78
- Collibra, 60
- Commit protocols (CPs), 51
- Compact discs, 82
- Component schema, 49–50
- Computer capital, 30
- Computer network (CN), 31
- Conceptual schema, 44–45
- Concurrency control protocols
  - (CCPs), 51
- Condition, 121
- Conditional RB (CRB), 121
- Confluent, 60
- Consumption centric, 99–100

- Convenience, 37
- Coordinating, 2
- CPM in dataplex, 127–128
- Creation of data, 77–78
- Cross-disciplinary, 29
- Curated zone, steps in creating
  - assets in, 134
- “Custom-made” solution, 4
- Cyber physical systems (CPS), 29
- Cyber security, 39
  
- Data analysts, 66–67
- Data analytics, 65
  - achieving strategic decision-making through integrated data analytics, 70
  - curating, analyzing, and integrating large-scale data using dataplex, 68–69
  - importance of data analytics in today’s organizations, 67–68
  - mapping DaaP with dataplex, 70–74
  - types, 66–67
- Data as a Product (DaaP), 65
  - mapping DaaP with dataplex, 70–74
- Data catalog, 92
- Data culture, steps in building, 116–117
- Data domains, 72
- Data in decision-making at
  - strategic level, 14
  - accountability, 17
  - accuracy and timeliness of decisions, 17
  - improving regulatory compliance, 17
  - optimizing decision-making process, 16–17
- Data intelligence (DI), 60–61, 91
  - application of DI at organizations, 95–97
  - benefits of DI at organizations, 97–100
  - through dataplex, 100–101
  - limitations and challenges, 101–103
  - non-technical challenges, 102–103
  - technical challenges, 102
- Data lakes (DLs), 79
- Data lifecycle management (DLM), 77–79
  - limitations and challenges of applying dataplex in, 87–88
- Data lineage, 92
- Data management, 33–36
- Data mining, 67
- Data processor, 43–44
- Data science, 91
- Data silos, 107
  - in banking, 113–115
  - in healthcare, 109–111
  - in retail industry, 112–113
- Data strategy, 35
- Data stream, 72
- Data zones, 79
- Data-driven decision-making, 15
- Data-driven organization, 116
- Data-driven strategy, 118, 120
- Database management system (DBMS), 39
  - types of, 40
- DataFlow, 57–58
- DataFusion, 58
- Dataplex, 56
  - advantages of dataplex to today’s organizations, 62
  - best practices for deploying, 134–135
  - CPM and governance in, 127–128
  - curating, analyzing, and integrating large-scale data using, 68–69
  - deploying dataplex at organizations, 131–132
  - DI through, 100–101
  - do’s and don’ts deploying, 135
  - functions, 58–59

- key features, 60–61
  - limitations and challenges of
    - applying dataplex in DLM, 87–88
  - limitations and challenges of
    - deploying dataplex on real-time basis, 139–140
  - mapping DaaP with, 70–74
  - monitoring and auditing data in, 125–127
  - organizational benefits of
    - dataplex solution, 137–139
  - policy management
    - and governance in implementing, 120–125
  - recommendations for practitioners, 141
  - single-click permission to IA, 59–60
  - steps in creating assets in
    - curated zone, 134
  - steps in creating assets in raw zone, 133
  - steps in creating zone in
    - dataplex lake, 133
  - strategies for future enhancement, 140–141
- Dataproc, 58
- Decision models, 3
- Decision recognition, 4
- Decision-makers and managers, 5
- Decision-making, 1, 99 (*see also* Strategic decision-making)
- alternative solutions, 7
  - best alternative, 7
  - in business sectors, 18–23
  - current solutions, 7
  - data in decision-making at
    - strategic level, 14–17
  - fundamental essence, 3
  - identification of actual
    - problem, 6
  - implementing decision, 7
  - levels, 8–14
  - at organizations, 5–8
