INDEX

Accountability, 116–118
Attainment gaps, 117

Boundaries, 53
Boundary objects, 54, 64–69
Brokerage, 53–76
Broker characteristics, 69–72
Bronfenbrenner's ecological systems theory, 209–210
Brown, C., 15

Centrality, 109
Change agents, 98, 138
Chapman, C., 17, 18
Collaboration, 18
  aid and assistance, 21
  effective, 19–20
  historical, 22
  joint work, 21
  learning, 1, 14
  sharing, 21
  storytelling, 21
Combination mode, 59
Communities of practice, 14, 15, 47, 64, 65
Competition, 116–118
Concerns Based Adoption Model (CBAM), 99–100
Contrived collegiality, 18
Critical consumers, 208
Cultures
  innovation, 152–154
  trust, 152–154

Data Teams, 26, 45
Decentralisation, 114–115
Density, 109

Developing Potential-Empowering schools project. *See* *Pess* networks
Distributed leadership (DL), 46–47, 125–128
  models of, 126
  school leader capacity, 128–130
  approaches, 204–205
  PLN participants, 205

Education networks, 9–14
Effective collaboration, 19–20
England, 5, 12, 79–111, 137–162, 203–215
English system, 117
Environmental conditions, 114
Externalisation mode, 59

Face-to-face communication, 65
Facilitation, 60
Formalise, 40–43, 80, 122–124, 176, 203, 206

Geographical proximity, 22
Germany, 65, 79–111, 163–183, 185–201, 203–215
Great Education Reform Movement (GERM) systems, 118

Hampshire research learning network, 119–120, 160–161
Historical collaboration, 22

Homogenous networks, 20
Hubers, M. D., 53

Innovation, 52–53
Instructional leadership, 35
Internalisation mode, 59
Interventions, 56, 171, 211
Interviews, 85–86, 90–95, 174

Joint practice development (JPD), 61
  focused enquiries, 69
  structured peer observations, 69
  training students, 69

Knowledge brokerage, 53–76
Knowledge creation, 59
Knowledge mobilization, 14, 46, 86
Knowledge Network for Applied Education Research (KNAER), 11

Labyrinth, 29–50, 203–215
Leadership
  addendum, 26–28
  distributed leadership, 125–130, 149–151, 204–205
  professional learning networks (PLNs), 34–36
  school leadership, 168–169
Learning conversations
  evidence and/or ideas, 60
  experience and external knowledge/theory, 60
  facilitation, 60
  protocols and tools, 60
Learning organisations (LOs), 74
Liquid modernity, 114
Literacy, 117

Mobilise, 40, 51, 130–131, 149, 198, 204
Multi-Academy Trusts (MATs), 113
Mutual learning, 23

Ofsted, 115–117, 123
Opinion formers, 72, 73, 81
Optimum design, 108
Organisational goals, 35, 36

Pedagogic leadership, 129
Perceived benefits, 192–193
Performance management targets, 42, 122, 134, 135, 206
Pess networks, 3, 6, 109–111, 185–201
  formalizing, 176–177, 186–188
  internal evaluation data, 166
  learning networks, 169–172
  local education networks, 166–167
  mobilizing, 177–180, 188–192
  new governance model, (NGM) 165
  PISA, 165–166
  PLN benefits, 180–181
  prioritizing, 174–176, 186–188
  research findings, 174
  school leadership issues, 168–169
  socio-economic status (SES), 164
  stages, 172
  time, 182
  voluntary based PLNs, 168
Pess survey, 109–111
Poortman, C., 1, 15
Practitioner-based social capital (PBSC), 47
Prioritisation, 40–41, 122–124, 154, 203, 206–207
Professional development, 86, 101, 115, 152, 162
Professional learning communities (PLCs), 92, 103, 149
  within-school, 43, 53, 56
Professional Learning Network (PLN)
  benefits, 16–17
  defined, 14
  Germany and England, 79–111
  labyrinth, 33
  leadership, 34–36
  success conditions, 17–26

Quasi-market pressures, 116
Queens University, Canada, 108

Reflective professional inquiry, 23, 26, 58
Relevance benefits, 192–193
Research-informed teaching practice (RITP), 81, 119, 169
Research Learning Network (RLN), 3, 80, 97, 113–135, 137–162
  accountability, 116–118
  competition, 116–118
  decentralization, 114–115
  distributed leadership, 125–128, 149–151
  Dreyfus model, 138–140
  formalizing, 122–124
  Hampshire research learning network, 119–120
  innovations, 144–149
  mobilising approaches, 130–131
  participants, 156–160
  prioritizing, 122–124, 154–156
  research findings, 121–122
  resources, 131–132
  school findings, 132–134
  school improvisation, 120–121
  self-improvement, 114–115
  survey data analyzing, 140–144
  work-related networks, 151–152

School budgets, 131–132
  budget cuts, 44
School governors, 123, 133, 134
School Improvement Plan, 29, 115, 135, 192, 206
School leaders, 35, 49
Self-improvement, 114–115
Self-organising distributed leadership, 199–200
Senior leader, 35, 122, 130, 160, 198
Socialisation mode, 59
Staff engagement, 198–201
Staff meetings, 45, 55, 128
Stoll, L., 49
Storytelling, 21
Student outcomes, 11, 17, 44, 61, 129
Survey design, 108–109
Sustainability, 138, 194–198

Teachers, 3
  collaboration, 13
  interviews, 85–86
  joint work, 21
  Pess networks, 163–183
  practice, 16
  priorities, 41
  Professional Learning Network (PLN), 34
  reflection and inquiry mindedness, 16
  research learning networks, 113–135
  self-improvement, 13
  skills and knowledge, 9
  sustained learning, 20
Teaching assistants, 128, 129
Teaching practices, 1, 33, 81, 152
Theories of action (ToA), 63
Transformational leadership, 35
Trust, 20, 74, 137–162

Virtuous cycle, 117

Within-school factors, 35
