

# INDEX

- Abbreviated episodes, 162
- Academic instruction (*see also* Social communication instruction), 126–130
- Academics, 52
- Academy for Certification of Vision Rehabilitation and Education Professionals (ACV-REP), 96–97
- Access, 2–3
- Accessibility features, 89
- Accommodations, 145–146
- Activity time, 221
- Adobe Premiere Rush, 117
- Adolescents with ASD, 118–120
- Affective learning, using TAI to enhance, 114–120
- Age-appropriate assistive technology, 98–99
- Age-appropriate technology, 98–99
- Aided communication, 111–112  
supports, 130–131
- Alternative and augment communication (AAC), 236–237
- American Foundation for the Blind (AFB), 100–101
- American National Standards Institute (ANSI), 78
- American Sign Language (ASL), 77
- American Speech and Hearing Association (ASHA), 72
- Apple iPod ©, 135
- Apple products, 23
- Applied behavior analysis (ABA), 32–33, 132
- Apps, 4–5, 53
- Archimedes screw, 31
- Artificial intelligence (AI), 43–45,  
224–225  
AI-based approach, 235
- Artificial technologies, emergence of, 43
- Assistive listening devices (ALDs), 77
- Assistive technology (AT), 2–3, 16,  
52, 63, 72, 77, 145  
barriers to, 19–20  
categorization with examples, 54  
as compensatory strategies,  
145–146  
independence and transition, 58–63  
instructional aids/academics, 53–58  
for learning disabilities, 16–17  
for students with visual impairments, 91–92  
support communication, 111–114
- Assistive Technology Act, 216
- Association for Education and Rehabilitation of the Blind and Visually Impaired website (AER website), 96–97
- Association of Assistive Technology Act Programs, 19
- Attention, strategies to accommodate, 149–150
- Attention deficit hyperactivity disorder (ADHD), 19
- Audio SOPS, 60
- Audiobooks, 56–57
- Augmentative and alternative communication (AAC), 111
- Augmented feedback, 223
- Augmented reality (AR), 4, 62
- Aural rehabilitation, 74–75
- Autism, 118–119
- Autism spectrum disorder (ASD), 35,  
105–106  
communicative and social challenges, 106–107

- narrow interests and exceptional abilities, 106–107
- poor nonverbal conversation skills, 107
- TAII, 107–110
  - using TAIH to enhance affective and social learning, 114–120
  - using TAIH to enhance communication, 110–114
  - uneven language development, 107
- Automatic speech recognition (ASR), 77
  
- Basic episodes, 162
- Behavior support strategies, 132–134
- Behind-the-ear hearing aids (BTE hearing aids), 73–74
- Bitmoji classrooms, 87–88
- Blind, 88
- Bone-anchored hearing aids, 73–74
- Brain trauma, 146
- Bug-in-ear technology, 41
- Built-in accessibility features for students with visual impairments, 88–91
  
- Calculators, 53
- Center for Inclusive Technology and Educational Systems (CITES), 18
- Centers for Disease Control and Prevention (CDC), 143–144
- Certified Assistive Technology Instructional Specialists for People with Visual Impairments (CATIS), 96
- Certified Orientation and Mobility Specialists (COMS), 96
- Chrome extensions, 23
- Chromebooks, 23, 224–225
- Classroom learning, 148
- Classroom noise, 78
- Classroom practices, 2
- Classroom teachers, 9–10
  
- Classroom technology specific to DHH, 78–82
- Closed captioning (CC), 194–195
- Cloud computing, 208–209
- Cochlear implants (CI), 73–75
- Cognitive rehabilitation, 145
- Collaboration, 98–102
- Comics and text complexity, 165–166
- Common Core State Standards (CCSS), 162–163, 166
- Communication, 2, 43–44
  - using TAIH to enhance, 110–114
- Communication access real-time translation (CART), 77
- Communicative supports, 111
- Compensatory interventions, 145
- Compensatory strategies to enhance learning for students with TBI, 148–150
  - strategies to accommodate attention, 149–150
  - strategies to accommodate for working memory, 148–149
  - strategies to accommodate language, 150
- Complex communication needs (CCN), 130
- Computer modeling, 44–45
- Computer-aided note-taking (CAN), 77
- Computer-assisted instruction (CAI), 1–2
- Computer-based instruction (CBI), 205–206
- Computer-based technology, 205–210
- Concrete, representational, and abstract learning (CRA), 25–26
- Concrete manipulatives, 55–56
- Concussions, 144
- Constant time delay (CTD), 129
- Content areas, 129–130
- Cooperative learning, 206–210
- Council for Exceptional Children (CEC), 96–97
- Covert audio coaching (CAC), 136

- COVID-19
  - pandemic, 224
  - using technology to deliver instruction during, 8–11
- Cruel optimism of technological advancement, 33–34
- Cultural model of disability, 185
- Culturally or linguistically diverse students (CLD students), 199–200, 234
  - computer-based technology, 205–210
  - culturally relevant instructional strategies, 204–205
  - future perspectives, 210–212
  - students from CLD backgrounds, 201–204
- Culturally Relevant Pedagogy (CRP), 188, 204
- Curricular resources, 204–205
- d/Deaf and hard of hearing (DHH), 71–72
  - classroom technology specific to, 78–82
- Daily living skills, 134–135
- Daily living tasks, 59
- Data-based evidence, 36–42
  - technology as limitation, 36
  - technology to improve academic outcomes, 38–40
  - technology to improve social outcomes, 36–38
  - technology to train or support teachers, 40–42
- Data-based individualization (DBI), 42–43
- Deaf, 71–72
  - assistive technology, 77
  - classroom technology specific to DHH, 78–82
  - common types of amplification for children with hearing loss, 73–75
  - educational attainment, 71–72
  - hearing loss, 72–73
  - impact of hearing loss on student learning, 75–77
  - virtual learning, 82
- Delaware Autistic Program (DAP), 111–112
- Digital comic creation
  - importance of narratives, 162–164
  - importance of visual narratives, 164–166
  - macrostructural element supports and digital comics, 167–171
  - macrostructural narrative elements, 161–162
  - microstructural element support and digital comics, 171–176
  - microstructural narrative elements, 160–161
- Digital Education Community Caucus (DECC), 191
- Digital Education Hub (DEH), 182, 186–187
  - throughlines, 188–190
- Digital gaming, 241–242
- Digital radio frequency (DM), 80–81
- Digital storytelling, 160, 165
- Digital technologies, 234
- Digital timers, 133
- Digital token boards, 133
- Direct Instruction, 32–33
- Disabilities Education Act, 216–217
- Disability, 184–186
- Disability Studies, 184
- Disability Studies in Education (DSE), 184
- Distance, 79–80
- Diversity, equity, and inclusion (DEI), 202–203
- Diversity of population of learners with visual impairments, 97–98
- Dyscalculia, 16
- Dysgraphia, 16
- Dyslexia, 16
- Early childhood education (ECE), 10

- Early intervention with technology for students with visual impairments, 98–99
- Education for All (EFA), 217
- Education policies on technology, U. S. department of, 219–220
- Educational attainment, 71–72
- Educational teams, 98–99
- Educational technology, 2, 17, 19, 200 policy, 219–220
- Educators, 23, 105–106, 240–241
- Electromagnetic induction, 80–81
- Electronic books (E-books), 56–57
- Emotional and behavioral difficulties, strategies to accommodate, 151–153
- Emotional and behavioral disorders (EBD), 34, 184  
 addressing practical problems, 31–33  
 claims *vs.* evidence, 35–36  
 cruel optimism of technological advancement, 33–34  
 currently available technologies in education, 32–33  
 data-based evidence, 36–42  
 failure of technologies in education, 33  
 generality of findings, 36  
 issues in database, 34–36  
 predictions of changes and technologies in serving students with, 43  
 problematic participant identification, 34–35  
 recurring themes in technology development, 32  
 search procedures, 34
- Emotional Disturbance (ED), 34
- Employment, 125–126  
 supports, 135–136
- English language learners (ELLs), 205
- Enhance learning, 218–219  
 challenges, 227–229  
 purpose of technology, 220–223  
 using qualitative movement diagnosis for students with physical disabilities and health impairments, 226–227  
 technology use by students with physical disabilities and health impairments, 224–225
- U.S. department of education policies on technology, 219–220
- united nations sustainable development goals and ISTE standards, 217–218  
 use of technology by youth and young adults in general, 223–224
- Equity, 187–188
- Every Student Succeeds Act (ESSA), 221
- Executive functioning, 143–144
- Explain Everything, 209
- Explicit instruction, 25–26
- Expressive narrative skills, 159–160
- Extensive support needs (ESN), 125–126  
 academic instruction, 126–130  
 social communication instruction, 130–136
- Facebook, 236
- Feedback, 223
- Filmmaker Pro, 117
- FilmoraGo, 117
- Fishtopia, 148
- Flash cards, 4–5
- FlyTM Pentop Computer, 53–55
- Free and appropriate public education (FAPE), 185
- Frequency modulation (FM), 80–81
- Gaming consoles, 134–135
- Generation Z (Gen Z), 223–224
- Graduated teaching sequence, 25–26

- Graphic organizers, 58, 167
- Handheld devices, 117
- Head traumas, 144
- Health impairments, 216
  - using qualitative movement diagnosis for students with, 226–227
  - technology use by students with, 224–225
- Hearing aids, 73–74
- Hearing assistive technologies (HATs), 78, 80, 82
- Hearing loss, 72–73
  - common types of amplification for children with, 73–75
  - configuration, 72–73
  - degree, 72–73
  - impact of hearing loss on student learning, 75–77
  - type, 72
- High incidence disability; educational technology, 16–17
- High-speed networks, 239–240
- High-tech assistive technology, 52–53
- High-tech tools, 21–22
- High-technology tools, 95
- I-Connect self-monitoring application, 134
- iMovie, 117
- Implicit Relational Assessment Procedure (IRAP), 41
- In-the-ear hearing aids (ITE hearing aids), 73–74
- Inclusion, 187–188
- Incomplete episodes, 162
- Independence, 58–63
- Individualized educational programs (IEPs), 2, 16, 98, 108, 110, 211–212
- Individuals Family Service Plans (IFSPs), 98
- Individuals with Disabilities Education Act (IDEA), 7–8, 19–22
