

INDEX

- Academia, 252–255
Accounting test, 226–227
Accounting values
 accounting test, 226–227
 compromise and controversy, 211–220
 compromise of worths, 227–229
 compromise situations, 217–220
 empirical settings, 220–234
 managing multiplicity, 220–226
 qualified object, 214–215
 SET, 229–234
 tests of worth, 215–217
Adversarial discursive strategies, 161
American pragmatism, 9
Assess worth, 245

Boltanski's justice, 313–317
Boltanski's love, 309–313
Bourdieu-based approach, 9
Bourdiesian sociology, 23
Business simulation, 251–257

Civic world, 11, 179
Coherentism, 350
Commercialization trajectory, 251–252, 257–258
Common good, 280–281
Common worlds, 10
Competitions, 392
Complex domination, 114–115
 financial intermediation, 131–132
 Lemieux's approach, 118–120
 power, 134–136
Complex financial domination, 16
Compromise, 75, 79, 82
Compromise of worths, 227–229
Compromise situations, 217–220
Concern for community, and member benefit, 89–90
Contemporary societies, 7, 17
Conventions
 legitimate, 59
 sociology of, 74, 75, 78–79
Co-operation, 91–92
Co-operatives, 75, 80, 89
Coordination, 386–389
Corporate social responsibility (CSR), 21, 22
County Agricultural Departments (DDAs), 277
County Amenities Departments (DDEs), 277
Critical capacities, 22
Critical Discourse Analysis (CDA), 152
Critical sociology, 6
Critique, 4, 5, 10, 11, 75, 79, 82

Data analysis, 82–84, 123–125
Data collection, 81–82
Democratic debate, 286–287
Democratic member control, 84–86
Democratizing critical theory, 8
Dialogue
 conformity to, 40–43
 moral legitimacy emerging, 56–63
 negotiating moral legitimacy, 52–56
Domestic heritage and quality of life, 282–283
Domestic world, 11, 179

- Domination, 112–120, 145, 148, 149
 Downscaling energy view, 194
- Early adoption, 384–386
 École des Hautes Études en Sciences
 Sociales (EHESS), 383
- Ecological argument, 282
 Ecological cause, media coverage of,
 284–285
 Ecological goods, market value of,
 285
 Ecological justification
 cover of nature, 275–278
 invocation of nature, 274–275
 nature in polity, 278–290
 polity to ecosystem, 290–296
- Economies
 of enrichment, 20
 member economic participation,
 86–89
 national economic competitiveness,
 146
 of worth perspective, 175
- Economies of Worth (EW)
 conceptual grammar, 10–12
 intellectual origins of, 6–10
 typology of, 35
- Economies of Worth* (Stark), 4
- Economy of enrichment, 20
- Ecosystem
 balance in system, 293–295
 biological integration, 295–296
 biosphere, 295–296
 referent community, 290–293
- Empirical setting, 79–81
- Energy
 downscaling energy view, 194
 justified energy, 191–196
 material consequences of, 177
 security, 156
- Energy regimes
 energetic foundations of societies,
 180–183
 energy problematic, 183–189
 justifications, 176
 re-valuing energy, 189–196
 social science, 177–180
 theory, 177–180
- Energy security, 156
- Environment, industrial efficiency
 and technical approach to, 286
- Environmental movement, ecological
 thinking, 185–186
- Ethnomethodology, 7
- Evidentialism, 350
- EW tool box, 211–220
