

INDEX

Note: Page numbers followed by “*n*” with numbers indicate notes.

- Abduction, 71, 165
- Abductive reasoning, 72
- Academic(s), 87
 - competitive global publishing, 82–83
 - impact, 82, 87–89
 - prestige, 82
 - publishers consolidation, 84–85
 - unclear funding model, 89–90
 - writing, 218
- Academy of Management (AOM), 81, 224, 227, 232*n*2
- Academy of Management Journal (AMJ), 105, 202–203
 - approaches in AMJ interpretive/qualitative articles, 204
- Accountancy, 223
- Actor-centered theory, 36
- Actor-network theory, 126
- Additional value pool, 145–148
- Altmetrics, 85
 - academic and external impacts, 87–89
 - adapting to new OA environment, 91–92
 - authoritativeness of knowledge, 90–91
 - implication of OA publishing and, 87
 - knowledge consumption, 91
 - knowledge production, 87
- Analytical
 - analytically-oriented
 - visualizations, 183
 - flowcharting, 183
 - framework, 33
 - grand theory, 34
- Anthropological approach, 211–212
- Association of Business Schools (ABS), 84
- Authorial identity, 244
- Authoritativeness of knowledge, 90–91
- Automated measures of manuscript change, 107–110
- Automated textual analysis, 105–106, 119
- “Auxiliary/support” role to tables, 207
- Behavioral reductionism, 28–30
- Bien pensant* story of neoliberalism, 229
- Body-counting research, 26
- Boundary rituals, 167
- Bounded rationality theory, 46
- Bourdieu, 219–220, 223, 227
- British class system, 206
- Budapest Open Access Initiatives (BOAI), 86
- Bureaucratic phenomenon, 45
- Capitalism, 22
- Career advancement, 82
- Categorizing process, 174
- Causal map (*see* Cognitive maps)
- Ceremonialism in organisational life, 224
- Citation
 - analysis, 81
 - counts, 78
- Citizen science initiatives, 87
- Civil regulation, 31
- Class, 226, 240
- Class work, 242, 249

- Classic pragmatism (CP), 46, 49, 51–52
- Clustering process, 174
- Coding process, 174
- Coercive organizations, 52
- Cognitive mapping, 178
- Coherence, 69–71, 73
- “Common analysis recipe”, 203
- Communication, 166, 176
 challenges of visualization for, 194
 visual artifacts as tools for, 194–196
- Comparative actor-centered research, 37
- Comparative methods, 36
- Comparative orderings, 83
- Complex relational networks, 130
- Computational reasoning, 66
- Conceptual(ization), 176
 clarity, 262–264
 models, 187
 relevance, 262
 visual artifacts as tools for, 187–194
- “Confessional tales”, 256
- Consequentialism, consequences of, 52–53
- Constitutive logic, 43–44
- Constructed nature of truth, 239
- Contemporary CSR, 32
- Context horizon, 151–153
- Contextualizing multiple discoveries, 130
 building on previous research, 131–132
 inspiration from network of colleagues, 133–134
 variations in field sites, 130–131
- Conventional hypothetico-deductive positivist research, 67
- Conventional visual repertoire, 176–178
- Coordinated market economies (CMEs), 34
- “Correlational theorizing”, 65
- Cosmopolitans, 126, 137
- Counter-factual reasoning, 72
- Creativity, 61
- Critical self-evaluation, 239
- Criticisms, 104
- CSR, 22, 25, 30–32, 35
- Cuban Missile Crisis, 243
- Cultural Capital of Europe, 48
- Cultural evolution, 33
- Cultural turn, 132
- Data analysis, 176
 visual artifacts as tools for, 182–187
- De-contextualization (*see also* Contextualizing multiple discoveries), 22, 35
- De-essentialised professionalism, 221
- Decision making, 44, 50
 pragmatism as style of, 45
- Decision outcome, 28
- Declaration on Research Assessment (DORA), 85
- Declassification, 242
- Deconstruction, 245
- Deductive reasoning, 71
- Deontology, 49
- Dialectic conceptualizations, 189
- Dialectical model, 192
- Digital revolution, 78
- Discourse, 143–144
 analysis, 143
 strategy, 145–149
- Discursive epistemology, 149–153
- Discursive perspective on organizing, theorizing and knowledge production, 142–144
- Distancing, 242
- Distinctive College, The*, (1970), 132
- Education myth, 131
- Emerging methodology, 105–106
- Employment relations model
 of employee voice determinants, 30
- Engaged agent, 263
- Engagement and distance, 258

- Epistemic virtues, 64–65
 “Escalating indecision” process, 185, 189, 193
 Ethic of conviction, 53
 Ethic of responsibility, 53
 Ethical ambiguity, 264–266
 Ethical insecurities, 265
European Group for Organisational Studies (EGOS), 81
 Evidence tables, 206
 Evidentiary challenge, 104
 Evolution, 26
 of organizational language, 130
 Experimental spaces, 177
 Explanatory principles, 69
 Exploitation, 226
- “Factor analytical” approaches, 62
 Fair share exchange ratio, 146–147
 Feminist theory, 230
 Field research, 258
 Field researchers approach, 263
 Field sites, variations in, 130–131
 Field theory, 33
 Field-site phenomena, 263–264
 Financial crisis, 33, 145
 Financial Times 50 (FT 50), 84
 Flow charts, 178–179
 Folk concept, 220
 “Framing contests” study, 177
- ‘Gaming’ behaviours, 82
 Gender, 240
 essentialism, 25–28
 ‘Gender-based Foundations of Negotiation Theory’, 246
 Generalizability, 37
Gesinnungsethik (see Ethic of conviction)
 Gioia
 approach, 203, 206–207
 data structure, 202, 203
 methodology, 203
 template, 202
 Gioia chart (see Gioia—data structure)
- Global governance research, 30
 Goal attainment, 185
 Grand challenges, 158, 229–230
 Grand theory, 22–25
- Hegemony, 226, 246
 High-Impact Factor journals, 83
 Hyper-pragmatism, 49
 Hypothetico-deductive positivist research, 65–66
 Hypothetico-deductive quantitative social science, 65
- Identity-congruent artefacts, 267
 Ideology, 226
