INDEX

Abrahamic faiths, 101
Adaptation theories, 200
Affordance theories, 200
Afrocentric philosophical tradition, 30–31, 34–41
Afrocentric view, 34
Ambidexterity, 6, 69, 85
Anthropocene, 153
Artificial intelligence, 138, 143–144, 177
Asymmetrical balancing, 65–66
Awareness, 35, 43, 142–143, 147, 166

Becoming, 16, 36, 78, 80–81
Bible
  Biblical scriptures, 78
  Biblical texts, 76
"Both/and" system, 53–57, 60–62
Boundaries, 96–97, 107–108, 182, 189
  organizational, 18
  planetary, 153–155
Bridged paradox, 67

Chinese philosophy, 16, 101
Christian belief system, 16, 76
Christianity, 76–77, 120
Climate change, 4, 7, 17, 19, 153–156, 159–166
Cognitive sensemaking abilities, 165
Coincidence of opposites, 117–118
Collective paradoxical disposition, 43–44
Confucianism, 6, 33–34, 56
Consensus building, 35, 44
Constitutive approach, 132–133
Contextual ambidexterity, 61, 175
Contingency
  theory, 4
  for threshold via three operating mechanisms, 65–67
Contradictions, 114, 195–196
  conditions producing shifts, 196–198
  processes, 196–198
Corporate leaders, 155–156, 166
Creative tension, 85, 88, 90, 117
Curvilinear balancing, 65, 67

Deity, 77, 97–98, 101
Deparadoxization, 199
Dialectical theory, 199
Digital disruption, 172–173, 187
Digital paradoxes, 195, 198
Digital technologies, 172, 174, 186
Digitalization, 176, 186
  contexts, 187
  of music distribution, 180–184
Digitizing, 175, 181–182, 185
Disciplines to advance paradox research, 9–21
Disruptive digital innovations, 181
Diverse interpretations, 16, 97, 103–104
Double-binds, 78
Duality, 52, 57, 134
  duality-oriented understanding of reality, 16
  duality-rooted balance, 57
  effects, 60–61
  scholars, 62
  wave-particle, 55

Eastern epistemological system, unique features of, 55–58
Eastern epistemology of Yin-Yang balancing, 54–62
Eastern philosophy of wisdom, 52
  unique features of, 54–55
"Either/or" system, 53–57, 60–62
Elastic hybridity, 104
Embeddedness of opposites in narrative of two trees, 84–85

Epistemic communities, 79

Formal logic, 18, 32–33, 47, 53

Garden of Eden, 16, 76, 80–82
Gemeinschaft, 41–42
Geocentric metaperspective, 62
Gesellschaft, 41–42
Global shocks, 161
Gödel's theorems, 56
Golden rule of balanced harmony, 67
"Good *vs*. evil" paradox, 81, 118
Grand challenges, 4–5, 7, 19, 152

Health, 7, 32, 42, 159–160
Heterogeneity, 106
Holocene, 153
Hybridity, 6, 41, 44
  methods for managing, 104

Icarus paradox, 21
Industry arrangements, 18, 173, 176, 180, 182–183, 186
Information systems (IS), 12, 17–18, 174
Inherent approach, 130–133
Interdisciplinary research, 5
Interdisciplinary theorizing, benefits and challenges of, 8–9
Interinstitutional systems, 105–107
Intersubjectivity, 43
Intra-action, 63–64, 134
Irrational coexistence, 30
Islam, 11, 16, 96–97, 105, 118–120

Jouissance, 88
Judaism, 76–77, 118
Judeo-Christian faiths, 76
Judeo-Christian foundational narratives, 77

Knotted paradoxes of temporal becoming, 82–84
Knowledge, *The*, 176–178

Latency, 131, 133–135, 196, 199
Leadership, 46, 87, 96–97, 100, 102–103, 107–108, 174
Legitimacy, 31, 89–90, 197
Logic, 13, 33, 85, 185
  of differentiation and integration, 9
  European binary, 39
  formal, 18, 32
Logical paradoxes, 175, 196
London taxicabs, 176–180

Machine learning, 143–144
Managerial sensemaking frames, 141–142
Measurement, 135–138
  composition of organizing teams, 139–140
  evolution of managerial sensemaking frames, 141–142
  material objects in organizing, 138–139
Meta-paradox, 67
Meta-physics, 134
Metatriangulation, 8–9
Modernity, 105, 119
Mosaic web browsers, 181
Multi-triangulation, 9
Multiplexity for knot with third element beyond dyad, 67–68
Multiplicity, 8, 41, 44, 82–83, 108, 116
Music industry, 173, 181–184, 188, 195
Mutual embeddedness of opposites, 84–86
  implications of mutual embeddedness of opposites for paradox in organizations, 85–86
  research to theorize implications of, 89–90
Mutual exclusivity of opposing poles, 84–86
Mysterium tremendum et fascinans, 115–116

Needs-based motivation theories, 88
Negation of negation, 33
Nitrogen, 153, 155, 159

Organization, 96–97, 100, 196
Organization theory, 4, 8, 147

Organizational identity, 88
Organizational inquiry, contributions of paradoxes of religious experience to, 120–123
Organizational paradox, 130
  implications for interdisciplinary inquiry of, 147–148
  quantum approach to, 131–137
Orthodoxy, 31
Otherness, 41
"Ought versus is" paradox, 16, 78–81, 87, 91

Paradox, 30, 32–34, 76–77, 107–108, 174–184
  bookended by world of being, 82
  of change, 172
  of control, 172
  engaging with, 97–100
  as foundational to Christian world views, 78
  frontier, 67
  implications for responding to, 145–146
  as mutual embeddedness *vs*. mutual exclusivity of opposing poles, 84–86
  "ought versus is" paradox, 79–81
  scholarship, 198–200
  sources, 100–106
  world of paradox, 81–84
Paradox theory, 4–8, 195–196, 198–199
  belief realm, 10–11
  realm of expression, 14–15
  realm of physical systems, 12
  realm of social structures, 13
Paradoxical tensions, 6, 17–18, 20, 80, 90, 100, 102, 106, 119, 132, 135–137, 139–142, 144–146, 152, 157, 160–161, 174–176, 188–189
Partial integration, 55, 57, 62–65
Partial separation, 55, 57, 62–65
Philosophy, 4, 8, 31, 35
Planetary boundaries, 152–156, 165
Planetary Boundaries Framework, 153
Planetary emergency, 151, 198
  collectively making sense, 164–166
  embedded view of planetary emergency shocks, 157–162
  framework for navigating paradoxical tensions, 163–167
  implications of planetary emergency for paradox thinking, 162–163
  leveraging paradoxical view, 166–167
  organizational perspective, 155–156
  across spatial and temporal scales, 164
  sustainability paradoxes, 156–157
Platforms, 185, 187
  digital, 179
  economics, 187
Platformization, 187
Plato's construction of reality, 80
Plurality, 103, 106, 116, 132, 179 (*see also* Duality)
Possible-impossible aporias, 45
Potentiality, 17, 134–135, 142–143, 145–148
Preparedness, 130–131, 142–148
Principle of complementarity, 61
Probability, 134
  awareness and preparedness, 142–143
  management, 142
  recognition of configurations, 143–145
  wave functions, 134–135
Psychoanalysis, 88
Psychological contract, 88
Psychology, 4–5, 8

Quantum approach, 130–131, 133–137
  to organizational paradox, 131–137
  to paradox, 17
Quantum mechanics, 133–134, 195–196, 198
Quantum physics, 17, 54–55, 61, 63, 133

Recognition of configurations, 143–145

Religion, 76–77, 96–97, 102, 107–108, 114–115
  engaging with, 97–100
  paradoxical assertions characteristic of, 115–119
Religiosity, 35
Religious experience
  to organizational inquiry, 120–123
  paradoxical dimensions of, 113–114
Rhythms, 15, 122

Sacred, 114–115, 123
  judgment, 100
  power, 116
  scripture, 101
Salience, 17, 131–132, 135–137, 139, 142
Scripture, 102–103
  biblical, 78
  Christian, 117
  Judeo-Christian, 82
  sacred, 101
Seed for overlap partial separation and integration, 62–65
Shared value, 39
Social paradoxes, 97, 175
Societal relationships, 105–106
Society, 7, 18, 41, 46, 172
  communal understanding, 37
  of organizations, 77
Socio-material contexts, 136–137
Socio-materiality, 138
Sociology, 8–9
Soil health, 159
Structuration theory, 56, 199
Sublation, 53–54, 60, 68
Superposition, 12, 17, 64–65, 133–136
Sustainability, 6, 103, 137, 155–158
  corporate, 165
  environmental, 138
  paradox perspective, 152
  paradoxes, 156–157
  social dimensions, 154
System-level embedded paradoxes, 185

Taarud, 98, 120
Taiji symbol, 107
Tao, 34, 55
Temporal becoming, 82
Temporality, 80, 82–83
Tensions, 4–7, 154
  nature, 185–187
  strategies for managing, 187–190
Theorizing, 4, 9
Third space of paradox theorizing, 44–45
"Too-much-of-a-good-thing" effect, 67
Transcendence, 53, 60, 100–101, 108
Transitional balancing, 65–66

Uberization, 176–180
Ubuntu, 31, 119
  Afrocentric approach, 32
  Afrocentric philosophical tradition, 34–41
  implications, 41–45
  limitations and avenues for future research, 45–46
  paradox and west–east philosophical traditions, 32–34
UN General Assembly, 151–152
UN Sustainable Development Goals (SDGs), 155

Visuality, 139

Well-being, 7
  human, 155, 159, 165–166
  risks to long-term, 152
  social, 40
West–east philosophical traditions, 32–34
Western epistemological systems, limitations of, 52–54
Working through, 41, 156–157

Yin-Yang balancing, 34, 52, 120
  Eastern epistemology of, 54–62
  holistic and dynamic process, 65
  limitations of Western epistemological systems, 52–54
  new directions for future research, 62–68
