

INDEX

Note: Page numbers followed by “*n*” indicate notes.

- Abia family structure, 234–235
 - changes and dynamism in, 236
- Adjustments, 50
- African American couples, 202
- African American young adults, 17
- Age difference, 60, 63
- Age discrepancy in three generations
 - of study, 67–71
- Age gap relationships
 - of age heterogamy, 60
 - research, 61
- Age-discrepancy relationships, role of schooling and social class in significance of, 71–73
- Age-discrepant unions, 71
- Age-gap
 - role of schooling and social class in significance of, 71–73
 - in three generations of study, 67–71
- Age-heterogamy, 221, 223
 - age-gap and age discrepancy in three generations of study, 67–71
 - gender inequality in couple relationships, 73–74
 - method and procedure, 65–66
 - results, 66–67
 - role of schooling and social class in significance of age-gap and age-discrepancy relationships, 71–73
 - theory and concepts, 62–65
- Age-homogamy
 - age-gap and age discrepancy in three generations of study, 67–71
 - gender inequality in couple relationships, 73–74
 - method and procedure, 65–66
 - results, 66–67
 - role of schooling and social class in significance of age-gap and age-discrepancy relationships, 71–73
 - theory and concepts, 62–65
- Analytic strategy, 136–137
- Arranged marriage, 130–131, 145*n*2
- “Baby mamas” concept, 249
- “Base-born” concepts, 242
- Bastards concepts, 242
- Births, 215
- Black individuals, 3
- Black young adults, 4
- Breadwinner system, 43
- Breakup distress
 - casual sexual relationships, 27–28
 - committed sexual relationships, 26–27
 - current study, 28–29
 - data analysis, 31
 - hypotheses for breakup distress, 29
 - interaction effect, 34–35
 - materials and measures, 30
 - method, 29
 - participants, 29
 - procedure, 30
 - relationship differences, 34
 - results, 31–32
 - sample demographic information, 30
 - sex differences, 33–34
 - strengths and limitations, 36–37
- Breakups, 27

- Casual sex(ual) relationships, 27–28, 33
- Causal frameworks, 217
- Changes
 constellation of, 112
 in marriage and family laws, 125
- Children, 55
- Christianity, 245
- Civil unions, 181
- Civil war, 235
- Civil war-time (1967–1970)
 conjugal relationships civil war-time, 243
 family structure and conjugal relationship, 242
 family structure–step-parent and single-parent family system, 242–243
- “Close range” variables, 82
- Coding process, 156
- Cohabitation, 86, 215
- Cohabiting unions, 243, 250
- Colima Metropolitan Zone (ZMC), 65
- Colima-Villa de Álvarez Metropolitan Zone, 77*n*4
- Collective agency, 166
- Colorism role in romantic relationship quality, 4–6
- Committed romantic relationships, 33
- Committed sexual relationships, 26–27
- Community Development Chairman (CDC), 238
- Companionate love, 51
- Companionate marriage, 132–133, 145*n*1
- Competence-promoting parenting, 3
- Concept marriage market, 62
- Concubines, 240–242
- Confucian societies, 132
- Conjugal relationship pre-civil war (1901–1966), 240
 concubines, 240–242
- Conjugal relationships, 242
 intimacy mutations over time in, 53–55
- Conjugal relationships civil war-time (1967–1970), 243
 cohabiting, 243
 surge of “illegitimate” children and loss of true identity, 243
- Conjugal Relationships
 Contemporary Times (2001), 247
 side chicks, 247–248
- Conjugal relationships post-civil war (1971–1980), 244
 sugar daddies and sugar mummies, 244–245
- Conjuality
 challenges to ideas of family and conjuality from transnational “young” experience, 52–53
 creative adjustments as lens for interpreting family life, 45–46
 at distance, 42
 (in)stability of bond, 50–52
 interwoven life stories, 47–50
 methodology, 46–47
 space, 53–55
 theoretical background, 43–46
- Contemporary families in United States, 226
- Contemporary times family structure and conjugal relationship, 245
 conjugal relationships
 contemporary times, 247–248
 monogamy, single and step-parent family, 245–247
 single and step-parent family, 247
- Continuous independent variables, 9
- Control variable, 136
- Correlations, 9
 coefficients, 94
- Costa Rica, 152
 total fertility rate in, 157

- Costa Rican households
 - economic investment strategy, 161–166
 - household types, 166–170
 - literature review and theoretical framework, 153–155
 - marriage and fertility strategy, 157–161
 - methodology, 155–156
 - profile of persons and households interviewed, 157
 - results, 157
- Couple relationships, gender inequality in, 73–74
- Courtship process, 117
 - time of, 116–117
- Covariates, 8
- Creative adjustments, 43–46
 - as lens for interpreting family life, 45–46
- Croatia, 84
- Croatian families, 83
- Croatian population, 84

- Darker skin individuals, 16
- Dating process, 117
- Delicate process, 88
- Demographic dynamics, 42
- Demographics, 2, 85
- Dependent variables, 7–8, 135
- Developmental idealism, 134
 - education as developmental idealism generator, 133–134
 - evolving with marriage cohorts, 134–135
- Developmentalism-marriage, 139
 - framework, 130, 133
- Direct trajectory, 179
 - family relationships and dynamics on, 189–190
 - wedding ceremonies on, 185–186
- Distress, 101, 103
- Divorce
 - common reasons for, 200, 203
 - current study, 202
 - data analyses, 204
 - descriptive results and comparisons, 204
 - divorce/separation, 220
 - evaluation of findings, 205
 - female participants, 204–205
 - gender, 206–207
 - limitations, 207–208
 - literature review, 198
 - male participants, 205
 - measures, 203
 - method, 202
 - number, 204
 - practical implications, 208–209
 - predictors of divorce number by gender, 204–205
 - procedure, 202–203
 - remarriage and, 198–199
 - results, 204
 - sample, 203
 - sociodemographic characteristics, 203
 - sociodemographic predictors, 200
