

INDEX

- Aarts, H., 11
Abraham, M., 184
Abstractions, 119
Access, 131–132
Accuracy criterion, 66
Action; *see also* Consumer action; Marketing actions;
Reasons for action
defined, 8
intentional consumer action, 12
reasons for, 20–21
theory of reasoned action (TRA), 16, 24, 27–28, 154
Ad hoc categories, 120–121
Advertising
brand equity and, 185
empirical work on, 184
spending-stock performance link, 186
Affect
contextually induced affect, 52
experienced affect factors, 62–63
intensity of, 54–55
meaning of, 44–45
Affective construction process, 50
Affective forecasting, 44–53
consumer behavior and marketing, 46
consumer choice and, 47
decision-making theory and, 45–47
decision timing and, 48
defined, 44
dimensions of, 45
factors associated with, 60
future research directions, 71–73
gratification/self-regulation, 48–49
inducing of, 51–52
marketing practices, normative issues and, 69–71
mood, emotional well-being, and coping, 47–48
process of, 49–51
relevance of, 45–49
Affective misforecasting (AMF), 43–44, 52–69
actual outcome factors, 61–62
consumer behavior and marketing, 64
decision reversibility, 68
dimensions of, 52–53
drivers of, 56–59
duration, 55–56
Affective misforecasting (AMF) (*continued*)
experience/expertise, 67
experienced affect factors, 62–63
factors potentially moderating extent of, 66–68
forecast of affect factors, 60–61
future orientation, 67–68
future research directions, 71–73
imagined affective reaction to outcome, 59–60
initial representation of event, 56–59
intensity of affect, 54–55
optimism/pessimism, 67
outcome vs. process focused imagery, 68
product satisfaction/dissatisfaction, 63–65
relevance of, 63–66
sources of, 57
valence and specific emotions, 54
Agarwal, M. K., 187
Agency/agent, 8
Ailawadi, K., 186, 189
Ajzen, I., 11, 16–17, 21
Alba, J. W., 84, 130
Allport, G. W., 16
Alpert, M. I., 135
Analogies (relational comparisons), 119
Andersen, S. M., 48
Anderson, E. W., 186
Anticipated emotions (AEs), 25–27, 30, 55
attitudes and, 26
Anticipatory emotions, 27
Applicability criterion, 66
Approach goods, 69
Ariely, D., 84
Aristotle, 8
Armitage, C. J., 11
Armor, D. A., 68
Assmus, G., 184
Attitude tradition, 21
Attitudes, 24–25
anticipated emotions (AEs) and, 26
Attitudinal processes, 10–12
Audi, R., 35
Automaticity in action, 9–12
attitudinal processes, 10–12
impulsive system, 9–10

- Avoidance goods, 69
 Awareness, 192
 Awareness set, 110
 Axsom, D., 58–59
- Bagozzi, R. P., 3, 11–13, 17, 19, 24–30, 32
 Bakos, J. Y., 84
 Balanced Scorecard, 178
 Bargh, J. A., 9–11
 Barndollar, K., 9
 Baron, J., 52
 Barr, R. A., 131
 Barsalou, L. W., 120–121
 Barwise, P., 192
 Basic-level category, 115
 Bass, F. M., 184
 Bass model, 184–185
 Basuroy, S., 17, 30
 Batra, R., 184
 Bauer, P. J., 116
 Baumeister, R. F., 31
 Baumgarten, J., 19
 Baumgartner, H., 25, 27, 50
 Baye, M., 84
 Beattie, J., 47
 Beatty, S., 82–83, 91–92
 Bechara, A., 29
 Behavior; *see* Consumer behavior
 Behavioral desires, 28
 Belschak, F., 32
 Benefits
 cost-benefit of Internet search, 83–84, 86,
 91–92
 perceived benefits, 160–161
 social benefits, 161, 170
 Bentham, J., 48
 Bergami, M., 32
 Bernhardt, K., 186
 Bernoulli, 45, 47
 Bettman, J. R., 5
 Biases, 56–58
 durability bias, 55
 impact bias, 55
 optimistic bias, 60
 positivity bias, 60
 presentism bias, 60–61
 projection bias, 60–61
 Blackburn, S., 35
 Bless, H., 72, 128
 Boninger, D. S., 67–68
 Borin, N., 186
 Bownell, H. H., 115
