The books in *Tourism Social Science Series* (TSSSeries) are intended to systematically and cumulatively contribute to the formation, embodiment and advancement of knowledge in the field of tourism.

The TSSSeries' multidisciplinary framework and treatment of tourism includes application of theoretical, methodological, and substantive contributions from such fields as anthropology, business administration, ecology, economics, geography, history, hospitality, leisure, planning, political science, psychology, recreation, religion, sociology, transportation, etc., but it significantly favors state-of-the-art presentations, works featuring new directions, and especially the cross-fertilization of perspectives beyond each of these singular fields. While the development and production of this book series is fashioned after the successful model of *Annals of Tourism Research*, the TSSSeries further aspires to assure each theme a comprehensiveness possible only in book-length academic treatment. Each volume in the series is intended to deal with a particular aspect of this increasingly important subject, thus to play a definitive role in the enlarging and strengthening of the foundation of knowledge in the field of tourism, and consequently to expand the frontiers of knowledge into the new research and scholarship horizons ahead.

Published TSSSeries titles:

- Volume 24: *Authenticity & Tourism: Materialities, Perceptions, Experiences, Jillian M. Rickly and Elizabeth S. Vidon*
