

SUBJECT INDEX

Page numbers followed by f and t indicate figures and tables, respectively. Those followed by n indicate notes.

- Acción Social, 8
- Action–reaction model, 198
- Additive violence index
 - control model for, 81–85, 81f, 83t
- Africa
 - civil war in, 136–137, 137t
 - literature review, 132–136
 - model, data, and results, 136–138
 - state capacity, manufacturing, and civil conflict in, 131–138
- Age
 - at the time of exposure to war vs. HAZ, 156–157, 156f, 157t
- Amelia II program, 187
- Angolan Civil War
 - worse health outcomes after, 144
- Anthropometric data
 - of post Mozambican Civil War impacts, 150–152, 151t
- Arellano–Bond estimator
 - for conflict cost calculation, 185–186
- Asian Centre for Human Rights, 83
- AUC. See Autodefensas Unidas de Colombia (AUC)
- Autodefensas Unidas de Colombia (AUC), 7
- “Bandit”, 71
- Barco, Virgilio, 6
- Basque conflict, cost of, 173–174
- Betancur, Belisario, 6
- Bhutan, 191n4
- Butter, 26, 29
 - price, 32–33
- CA. See Constituent Assembly (CA)
- Castaña, Carlos, 7
- Caste polarization, for insurgency in Nepal, 110, 115, 115t, 120–121, 122t, 123t, 128–129
- CES (constant elasticity of substitution) type function, 212
- Chocó
 - forced migration, 3
- Christian–Muslim violence in Indonesia, 52, 67n1
- Civil conflict
 - forced migration and, 1–21
 - state capacity and. See State capacity and civil conflict
- Civil war
 - in Africa, 136–137, 137t
 - consequences of, 142–143
 - in Latin America, 137–138, 138t

- Mozambican civil war. See
 Mozambican civil war, impacts
 of
 Paul Collier on, 142
 worse health outcomes after,
 143–144
- Cobb–Douglas form, ROW, 32
- Cobb–Douglas type function, 212,
 213–214, 219
- CODHES, 8
- Coleman, James, 118
