

INDEX

- Ability measures, 281–282
- Adjusted goodness-of-fit index (AGFI), 219
- Adult medical emergency (AME), 117, 120
- Adults' moral development, 235
- Affective commitment, 91–92, 96
- Affective delivery, 258
- Affective events theory, 4, 64–65
- Affective reactions, 91
- Affective revolution, positive feedback and, 253
- Altruism, 40–41
- Anger, 178, 282–283
 - anger appropriateness, anger intensity, health outcomes, and reappraisal, 189–194
 - anger appropriateness, anger intensity health outcomes, and suppression, 187–189
 - anger appropriateness, sender anger intensity, health outcomes, and expression, 186–187
 - control variables, 185
 - dependent variables, 185
 - ER expression strategy, 182–183
 - ER reappraisal strategy, 183–184
 - ER suppression strategy, 183
 - internal processes of workplace anger targets, 196
 - limitations and future directions, 198–199
 - measures, 184–185
 - mediating role of targets attributions of, 181–182
 - mediating variable, 185
 - method, 184
 - moderating role of targets ER strategies associated with workplace anger, 182
 - moderating variable, 185
 - outcomes of sender anger intensity on target, 180–181
 - relational anger model, 178–180
 - results, 185–194
 - sender anger intensity, 184
 - workplace anger impact on negative health, 197–198
 - workplace anger intensity impact on positive health, 196–197
- Anger appropriateness
 - anger intensity, health outcomes, reappraisal and, 189–194
 - anger intensity health outcomes, suppression and, 187–189
 - sender anger intensity, health outcomes, expression and, 186–187
- Anger intensity
 - anger appropriateness, anger intensity, health outcomes, and reappraisal, 189–194
 - anger appropriateness, anger intensity health outcomes, and suppression, 187–189
 - anger appropriateness, sender anger intensity, health outcomes, and expression, 186–187
 - scale, 184
- ANOVAs, 263
- Anxiety, 2, 49
- Appropriate emotions, 143
- Appropriateness, 181
- Attributions, 279–281
 - theory, 178–180
- Australian

- financial industry in, 214–215, 221
- WLB literature for, 209
- Authentic positive emotion
 - expression, 254–255
- Authentic smiling behavior, 263
- Bad failures, 17
- Balance theory, 73–74
- Bienveillance*, 127, 129
- Bottom-up approach, 145
- Broaden-and-build theory, 24–25
- Buffering emotion, 2
- Bureaucracy, 2
- Burnout, 36, 41, 43
- Careers, 14
 - success, 18
- Center Hospitalier Universitaire (CHU), 120
- Climate change, 37
- Climate for emotional labor, 151–154
- Cognitive appraisals, 41
- Cognitive moral development theory, 235
- Cognitive reappraisal, 182
- Cognitive reframing, 279–281
- Combined specificity and affective delivery, 258
- Commercial entrepreneurship, 17
- Committed go-getter, 46–47, 50
- Common method bias assessment, 216
- Compassion appraisal, 231
- Complacency, 25
- Conformity values, 72
- Conservation of resources theory (COR theory), 210, 221
 - literature review and hypothesis, 210–214
- Conservation to change, 67
- Conservation values
 - emotional distress and, 72
 - emotional numbness and, 75–76
- Contempt, 242
- Context, 27
- Continuum, 38–39
- Contrahedonic motives, 169–170
- Controls, 215–216, 258
 - variables, 185
- Coping, 40, 280
 - mechanisms, 41–43
 - strategies, 3–4
- Cost–benefit analysis, 231
- COVID-19, 14
 - era, 17–18
 - pandemic, 2, 4, 154–155
 - sanitary crisis, 138
- Criticism, 20
- Customer satisfaction, 152–153
- Decision-making behaviors, 88, 93
- Demotion, 20
- Dependent variables, 185
- Deservedness, 231
- Differentiating emotions, 117
- Direction of Care, 120
- Discrete emotions, 164–166
- Discrete negative emotions, 24
- Display rules, 116–117
- Distance, dual rules of, 134–136
- Distributive justice, 164
- Dual rules of distance and empathy, 134–136
- Dual threshold model of anger (DTM), 181
- Early cognitive views of feedback, 252–253
- Effective emotional labor, 286
- Effective positive feedback, 256–257
- Effective teams, 253
- Emotion Expressiveness Scale (EES), 259
- Emotion Facial Action Coding System (EMFACS), 263
- Emotion management, 281–285
 - skills, 4
- Emotion regulation (ER), 162–163, 178
 - discrete emotions, emotion regulation motives, and job satisfaction, 166

- entitlement and emotion regulation motives, 164
- expression strategy, 182–183
- implications for practice, 172
- implications for theory, 171–172
- instrumental motives, 166–170
- model of emotion regulation
 - strategies adopted by entitled employees, 164–170
- moderating role of employee performance, 170–172
- moderating role of targets ER
 - strategies associated with workplace anger, 182
- motives, 166
- process model of, 179
- reappraisal strategy, 183–184
- suppression strategy, 183
- unmet needs and emotions, 165–166
- Emotion-focused coping (EFC), 4, 41–42
- Emotional arena, 116–117
- Emotional capability, 24
- Emotional coping literature, 4
- Emotional delivery in service encounters, 152–153
- Emotional dissonance, 148
- Emotional distress, 64, 70, 72
 - and conservation values, 72
 - and self-enhancement values, 71
- Emotional dues, 116
- Emotional expressivity, 259
- Emotional intelligence (EI), 24, 26–27, 92–93, 281–282, 285
 - representative findings from meta-analyses of, 284
- Emotional labor (EL), 5–6, 18–19, 119, 142–144
 - ambiguity, 147–148
 - autonomy, 148–149
 - climate for, 151–154
 - conceptual development, 143–151
 - future research and praxis, 154–156
 - in healthcare, 117–120
 - jobs, roles, and professionalism, 145–151
- Emotional neutrality, 118
- Emotional numbness, 64, 71
 - and conservation values, 75–76
 - and self-enhancement values, 74–75
- Emotional reactions, 15, 91–93
- Emotional regulation, 5–6, 26–27
- Emotional requirements in public hospital
 - comprehensive approach to emotional rules, 120–125
 - emotional labor in healthcare through perspective of emotional rules, 117–120
 - emotional rules modulation by healthcare professional, 137
 - formalized emotional requirements, 130–134
 - framework for emotional rules, 129–130
 - intricacy of formal and informal emotional rules, 136–138
 - limitations and future perspectives, 137–138
 - revealing dual rules of distance and empathy, 134–136
 - revisiting hospital emotional requirements, 125–136
- Emotional responses to social rejection, 70–76
 - emotional distress, 70–72
 - emotional numbness, 71
- Emotional rules, 117
 - broader view of emotional requirements in service and healthcare sectors, 118–119
 - characteristics of services studied, 122
 - choice of field of study and cultural considerations, 120
 - comprehensive approach to, 120–125
 - context and characteristics of field of study, 121–122

- data collection and analysis, 123–125
- dominance of integrative and masking display rules in service and healthcare sectors, 117–118
- emotional labor in healthcare through perspective of, 117–120
- framework for, 129–130
- modulation by healthcare professional, 137
- sources of emotional requirements in healthcare, 119–120
- Emotional scripts, 116
- Emotional skill, 92–93, 95
- Emotional states, 163
- Emotional texture, 116–117
- Emotional work, 119
- Emotionology, 38
- Emotions, 2, 18–19, 37, 88, 282–283
 - consequences of emotional reactions to failing and failure, 23–25
 - contagion, 254
 - failing and failure, 19–25
 - focused coping, 280
 - model of failure, 27–29
 - other dimensions of, 22–23
 - unmet needs and, 165–166
 - valence of, 20–22
- Empathy, 118, 230–231
 - dual rules of, 134–136
- Employees, 234–235
 - job performance, 215–216
 - moderating role of employee performance, 170–172
- Entitlement beliefs, 162, 165
- Entrepreneurial failure, 17
- Entrepreneurship, 14, 25
- Environmental psychology, 37
- Environmentalism, 40–41
- Epistemic enhancement motives, 167
- Epistemic motives, 167
- Equity theory, 164, 169
- Eudemonic motivation, 168
- Exclusion, 64
- Expression, 182, 186–187
 - ER expression strategy, 182–183
 - threshold, 181
- Expressive requirements, 117
- Failing, 14, 19, 25
 - consequences of emotional reactions to, 23–25
 - factors influencing emotional reactions to, 25–27
- Failure, 14–15, 18–19, 25
 - consequences of emotional reactions to, 23–25
 - defining and exploring constructs, 15–19
 - emotion model of, 27–29
 - emotions, 18–19
 - factors influencing emotional reactions to failing/failure, 25–27
