INDEX

Note: Page numbers followed by “n” indicate notes.

Accessibility, 40
Accessible transportation, 211
Active transport, 9, 90–91, 95, 304, 307–308, 315–316
Active travel (AT)
  communicate, educate, celebrate, and document results, 179
COVID-19 as opportunity to overcome the political barriers to implement AT, 176
COVID-19 induced cities and governments to investing in cycling infrastructures and financed acquisition of bicycles, e-bikes and e-scooters, 178
COVID-19, 165–166, 166–171
  cycling infrastructure, 179
increased appreciation of, 314–316
ingredient for resilient urban mobility and integrated to city transport guidelines, 177
lessons for policymakers, 176
policy initiatives promoting AT during COVID-19, 171–176
research needs, 179–180
thorough evaluation of temporary measures, 178–179
transform emergency/temporary measures to permanent ones, 178
walking-friendly city concept, 177–178
Activity behaviour, 78, 108, 123
Activity pattern, 78, 86, 111, 113
Activity space, 86–87
Africa
  changes in travel and tourism revenues and employment, 275
  number of cases and deaths caused by COVID-19, 7
  tourist workforce, 275
Agency operations, 211–121
Air freight, 152
Air India Express (AIE), 156
Air navigation service providers (ANSPs), 222
Air pollution, 307–308
Air Transport Action Group (ATAG), 222
Air transport industry
  commercial air transport regulators, 222–223
  economic and financial policies to support air transport operators, 230–232
  global commercial air transport industry, 221–222
  policies for freight, 228–229
  policies for passengers and crew, 225–228
  policies to protecting international public health, 223–225
Airline passengers, 223, 225
Airlines, 229
  cargo, 152
  cash-strapped, 156
  commercial, 222
  financial position, 231
  operational and logistical challenges for, 225
  pandemic, 260
  revenue, 229
Airports
- Distance and association with COVID-19 cases and deaths, 22–24
- Policy in UK, 226
- Volume and association with COVID-19 cases and deaths, 25

Amazon, 158
Amazon Pay, 155

American Airlines Cargo, 260
American Community Survey (ACS), 19

American history, COVID-19 deadliest outbreak in, 17

Americans with Disabilities Act (ADA), 210

App-based payments/cashless transactions, 155

Asia-Pacific nations
- (im)mobility policies and practices across, 130–137
- Travel behaviour effects in, 137–143

Asian Flu, 4

Association of Southeast Asian Nations countries (ASEAN countries), 145

Atmanirbhar India, 154, 156

Australia
- Congestion and public transport crowding in, 11
- COVID-19 pandemic in, 186
- Immobility policies and practices, 128, 132
- Island nations of, 121
- Lockdown restrictions, 191
- Public transport in, 312
- Working from home, 294

Auto ownership, 62
- Auto ownership and automobility during pandemic, 64
- Future of auto ownership in North America, 64–66
- Pre-COVID auto ownership, 62–64

Automated future, 47–48
Automation, 290, 298

Automobile ownership, 56–57, 62

Autobality during pandemic, 64

Autonomous vehicles, 258–259, 261

Aviation, 128, 137

Benzene, 307

Bharatmala Pariyojana Project, 156

BHIM (app-based payments/cashless transactions), 155

Bicycles, 178

‘Big data’ analysis, 129

Bike-sharing, 169–170, 177

Bilateral Air Service Agreements (BASAs), 229

Bio-security, 253n2

Bloomberg New Energy Finance, 253n6

Boeing 707, 224

Brisbane, 139, 142–143

Built environments, 308, 311

Bus, 44, 90, 169
- APTA, 60
- Automation of, 48
- Expense of bus service, 57
- Regular activities, 195

C40 network, 289

California Department of Public Health (CDPH), 207

California Public Utilities Commission (CPUC), 207

Canada
- Auto loans, 64
- COVID-19 in, 8, 56
- Extended-term loans, 64
- IATR, regulators in, 206
- Investment across transit modes, 57
- Region’s transit financing approach in, 69

Canada Emergency Wage Subsidy (CEWS), 231

Canadian National Collaborating Centre for Environmental Health (NCCEH), 208

Capacity, 40, 47, 111–112, 144, 152, 192, 310, 313–314
Car, mode shift from public transport to, 312–314
Car dependency, 294, 307, 311, 313–314
Car sharing, 49
Car-reduced future, 49
Car-sharing, 290
Carbon monoxide (CO), 307
Cargo airlines, 152, 156
Caribbean Cruise Tourism, COVID-19 effects in, 278
Carpooled, 19
Cashless payments, 192
Cashless transactions, 155, 157
Central business district (CBD), 144, 195, 249–250
China
coronavirus in, 5
domestic aviation traffic, 138
‘eradication’ policy measures used in, 145
in infrastructure development, 150
lockdowns in, 290
pandemic in, 187, 276
public transport, 137
‘Choice’ ridership, 58–60
Chronic diseases, 306
Cities under lockdown
access and mobility inequalities during pandemic, 113–123
COVID-19 and urban mobility, 110–111
data analysis, 112–113
data collection, 111–112
literature review, 109
methodology, 111
structural urban inequalities in, 109–110
in Latin America and Colombia preceding pandemic, 109–110
Climate change, 110
Co-modality of community transport, 195–196
Colombia
future recovery in, 109
lockdown in, 111, 117
online shopping in, 117
pandemic in, 9
structural urban inequalities in, 109–110
urban forms and mobility in, 123
Communicable diseases, 224
Communication and education initiatives, 176
Communicative mobility, 129, 142
Community Transport (CT), 195
co-modality of, 195–196
Commuting behaviours, 129
Commuting trips, 84–85
Comparative analysis of COVID-19 effects on tourism markets, 279–280
Complementary measures, 10
Computable General Equilibrium model, 277
Confidence intervals, 274–275
Congestion, 137
challenges and opportunities to managing congestion, 249–251
Consumerism, 258
Contestation of road space, 193
parking policies, 194–195
pop-up cycle lanes, 193–194
support for shared transport, 195–198
Coronavirus Aid, Relief, and Economic Security (CARES), 230
Coronavirus disease 2019 (COVID-19), 5–7, 16–18
airport distance and association with COVID-19 cases and deaths, 22–24
airport volume and association with COVID-19 cases and deaths, 25
availability of COVI D-19 vaccines, 34–35
cases and deaths, 21–22
data and methods, 18
data and sample size, 18–19
future, 11–13
future waves of COVID-19 virus, 33–34
infections and deaths, 16
number of cases and deaths caused by COVID-19 by region, 7
impact of other factors and racial composition of counties, 26
racial composition of counties and association with COVID-19 cases and deaths, 26
regional disparities in COVID-19 cases and deaths, 26–33
results, 21
statistical analysis, 20–21
timeline of selected events during COVID-19 pandemic, 5–6
transport and, 4–5
variable measurement, 19–20
Coronaviruses (CoVs), 5
Corporeal mobility, 129
policies, 131
Costs, revenues and, 293
Country case studies, 276–280
COVID Mobility Works, 171
and AT, 166–171
comparative analysis of COVID-19 effects on tourism markets, 279–280
crisis management, 155
effects in Caribbean Cruise Tourism, 278
effects in GCC countries, 277–278
effects on Australian inbound tourism, 276–277
effects on Indian tourism, 277
effects on tourism demand in Italy, 278–279
effects on tourism market, 276
equity effects, 293
across Europe, 78–81
evolved in Europe, 78
investing in cycling infrastructures and financed acquisition, 178
policy implications of COVID-19 on tourism, 280–281
policy initiatives promoting AT during, 171–176
private schemes to counter effects of COVID-19 on tourism, 281–283
on public transport sector, 186–187
revenues and costs, 293
ridership and mode share, 291–293
strategies to combat, 291
in Switzerland, 42
symptom screening, 209
and urban mobility, 110–111
vaccines, 213–215
virus, 274
Cox regression, 20
Crew, policies for, 225–228
Critical infrastructure, 203
Crowding
challenges and opportunities to managing congestion and crowding, 249–251
pre-COVID-19 levels of crowding on public transport, 244–248
Cybersecurity and Infrastructure Security Agency (CISA), 203
