SUBJECT INDEX

Note: Page numbers followed by "*n*" indicate notes.

Academics, 5
Accessibility, 5, 71
Affiliated colleges and institutes, 32
Afghanistan, 71
  and higher education, 71–72
  ministry and readiness to combat COVID in, 72–74
  shifting scenarios, 78
  voice of stakeholders, 74–78
Alternative learning opportunities, 47
American Psychological Association (APA), 44
Amid COVID-19, 106
Assessments, 40
  relevance of, 43–47
  strategies, 40
Asynchronous online communication synchrony, 120

Bangladesh, context of HE in, 32–33
Bangladesh Open University (BOU), 32
BlackBoard, 86
Blended learning, 25
Blended online learning, 25
Blending, 25
British Educational Research Association (BERA), 36
British Psychological Society (BPS), 36

Campus life, 8, 47
Canvas, 86
Case study, 107
Catastrophe, 4
Challenges, 58
  posed by COVID-19, 10, 154
Cognition and recognition of learner's individuality, 149
Commission for University Education in Kenya, 84
Community of higher education in Afghanistan, 77
Computer-based learning, 15–16
Consensus about ODTL, 37–38
Continuity, 126–127
Continuous professional development, 40
Continuous training, 37
Convergent parallel, 34
Coronavirus, 33
Correlation analysis, 127–129
COVID-19, 7, 9–10, 58
  epidemic, 46
  impact, 59
  infection, 84
  pandemic, 14–15, 17, 30, 42, 47, 70, 72, 116, 118
Culture of trust in education, 119
Curriculum, 40
  relevance of, 43–47

Delhi National Capital Region, 60
Developing countries, 32, 60
Development of self-directed learning competencies, 148–150
Digikids, 118
Digital childhoods, 118
Digital contents and for students on online platforms, 38

Digital divide, 42
Digital inequalities, COVID-19 pandemic on, 118
Digital literacy, 118
  findings, 122–130
  literature review and theoretical background, 117–121
  methodology, 121–122
Digital materials
  mediating pathway through intention to create, 159–161
  mediating pathway through willingness to adopt, 161–162
  results of moderated mediations, 162–164
Digital natives, 118
Digital readiness, profiling needs for, 118–119
Digital skills, 119
Digital teaching, 154, 157–159, 163
Digital technologies, 46
Digital transformation of life and future of HE, 46–47
Distance education (DE), 8, 102, 150
  avenues, 9
  context, 106–107
  during COVID-19, 105–106
  data collection and analysis, 108–111
  findings, 111–113
  limitations, 113
  methodology, 107–108
  pre-COVID-19, 103–105
Distance learning in Lithuania, 136–144
Distance teaching/learning, 139–140
Doctoral students, 18

E-learning, 15–16, 59–61
  committee, 77–78
E-resources, 60
Economic disruption, 5
Economic hardships, 74
Education, 44–45
  during coronavirus, 154
  in emergencies, 50
  sector, 14
Education in a distance, 139, 141–142, 145
  in Lithuania during the pandemic, 148
Educational institutions, 58
Educational strategy, 7
Educators, 5
  perceptions and operational/technical settings, 126
Effectiveness, 9
  of online education, 37, 43, 118, 166
Efficiency, 112–113
Eigenvalues, 63
Emergency online teaching, transition to, 124–126
Emergency remote teaching (ERT), 15–16, 117–118, 126–127, 154–155
  attitudes toward ERT and characteristics, 156–157
  mediating pathway through intention to maintain interaction during, 164–165
  results of moderated mediation related to intention to maintain interaction during, 165–166
Emergency remote teaching and learning (ERTL), 37
Emerging technologies, 31–32
Employability, preparedness of students for, 44–46
Enrollment, 70
Equality, 26
Equipping, 25
Erasmus Student Network (ESN), 43
Ethics, 26
European Credit System (ECTS), 149
Evaluation, 42

Factor analysis, 61, 65–66
Feedback, 9, 31
Financial strain, 8

Five-point Likert scale, 112
Fourth Industrial Revolution, 47–48
Free choice and responsibility, 148

Global pandemic, 4
Google Classroom, 33, 86

High school, 10, 156
Higher education (HE), 5, 14, 30, 58–59, 70 (*see also* Distance education (DE))
  amid COVID–19, 58
  changing landscape of, 31–32
  characteristics, 30
  context of HE in Bangladesh, 32–33
  digital transformation of life and future of, 46–47
  and employability, 44–46
  preparedness of students for future HE and employability, 44–46
Higher Education Learning Management System (HELMS), 75
Higher educational institutions (HEIs), 5, 30, 45, 47, 102
Hungarian school communities, 154
Hungarian teachers, 154

Igeneration, 118
Ikids, 118
Immediacy, 9, 105
Importance of interaction, 156
Inclusive education, 39, 42
Inclusiveness, 9, 105–107
India, 7, 58
Information and communication technology (ICT), 25, 33, 59, 85, 103
Information technology (IT), 38
Infrastructural preparedness in adopting online teaching and learning, 91–93
Instructor role online, 120
Intention to create digital materials, 159–161
Interactivity, 40
International universities, 32
Internet, 70
  at affordable cost and fund allocation for online education, 39
  connection issues, 76

Kenya Basic Education COVID-19 Emergency Response Plan, 84
Kenyan Universities, 8, 85, 91, 93
Khulna University, 32

Lanka Education and Research Network (LEARN), 14
Learner-centered instruction, 121
Learning, 4
  during COVID-19, 97
  experiences, 58
  style, 147
Learning management systems (LMSs), 14, 84, 86
Lebanon, 103
Lecturers, 19–24
Level of competency preparedness of lecturers and students, 93–95
Lithuanian educational system, 138
Lithuanian Students Union (LSU), 139–140
Lockdown, 58

M-Elimu, 86
Management Faculty, 14–15
  challenges on teaching and learning online, 20–22
  change of view on online teaching and learning, 22–23
  data collection and analysis, 17–18
  going online, 16–17
  online learning, 15–16
  perceptions on assessment, 23–24

perceptions on online teaching and learning, 18–20
Massive open online course platforms (MOOC platforms), 47
Meaningful learning, 36
Microsoft teams, 33
Minister of Education, Science and Sport (MESS), 137
Ministry of Education (MoE), 72–74
Ministry of Higher Education (MoHE), 72, 74–75
Mixed method, 9, 17, 34
Modality, 120
Modification of curriculum, 40
Moodle, 86
Moodle-based LMSs, 14
Motivating, 25
Motivation and self-motivation, 147
Multiple-choice questions (MCQs), 24

National University, 32
New normal education, 116
Novelty effect, 130

One-way ANOVA test, 109
Online assessment, 15
Online communication synchrony, 120
Online distance teaching and learning (ODTL), 30, 33, 36
consensus about, 37–38
system, 40
Online education, 16, 102 (*see also* Higher education (HE))
internet at affordable cost and fund allocation for, 39
methods, 156
research methodology, 60–61
results, 156–166
results, 61–66
revolution in Afghanistan, 77
system, 37
teachers' perceptions during COVID-19, 155–156
theoretical background, 59–60
Online learning, 15–16, 102–103, 84, 118, 140
Online mode of learning, 4
Online pedagogies, 37
Online platforms, 8, 33, 38, 40, 42, 124
Online teaching, 71, 103
aspects of, 60
Online teaching and learning, 85
challenges on, 20–22
change of view on, 22–23
perceptions on, 18–20

Pacing, 120
Pandemic, 58, 72
Participation facilitation technology, 86
Pearson's test for correlation, 94
Pedagogies, relevance of, 43–47
Perceptions
on online teaching and learning, 18–20
toward online learning, 58–59
Phoenicia University (PU), 103
Pilot testing, 61
Planning, 24–25
Policy, 30
and practice, 7
preparedness for online teaching and learning, 89–90
Positive impact, 59, 77
Post-COVID, 42–43
Post-COVID-19, 116
Practice, 31, 34
Pre-COVID-19, 103–105
Preparedness, 7
Private universities, 32
Private Universities Act 1992, 32
Public HEIs, 41
Public universities, 32

Qualitative method, 110–111
Quality, 26
in DE, 105
of online teaching, 60
uality and effectiveness of online education, 37, 43
Quantitative method, 108–110
Questionnaire design, 61

Questionnaire-based survey, 60–61

Reflection and reflective learning, 149–150
Reliability
  analysis, 61
  test, 61
Remote learning, 120
Remote teaching, 9, 15 (*see also* Emergency remote teaching (ERT))
Remote video conferencing, 86
Resilience
  effect of, 159
  mediating role of attitudes, 158

Science, Technology, Engineering, Arts and Mathematics students (STEAM students), 43–44
Self-directed learning, 145
Self-directed learning competencies
  development, 148–150
  in distance and online education, 145–146
  distance learning in Lithuania, 136–144
  essence and concept, 146–148
Self-efficacy
  effect of, 159
  mediating role of attitudes, 158
Self-regulated learners, 41
Shahjalal Science and Technology University, 32
Smart devices, 42, 49
Social distancing, 59
Social justice, 48
Social mobility, 5
Socio-economic status (SES), 33, 44
  diversity and lack of logistic facilities in remote areas, 39
  students, 44
Sri Lanka, 14
Standardized education plan, 67
Stress, 7, 65
Students, 18–24
  engagement, 40
  instructor ratio, 120–121
Students' participation, 126–127
Students' perspectives, 36–40
Students' preparedness, 30
  changing landscape of HE, 31–32
  context of HE in Bangladesh, 32–33
  for future HE and employability, 44–46
  implications, 48
  relevance of curriculum, pedagogies, and assessments, 43–47
  research methodology, 34–36
  teachers' and students' perspectives, 36–40
Sustainable Development Goals, 46
Synchronous online communication synchrony, 120

Teachers, 7
  collaboration, 117
  perceptions during COVID-19, 155–156
  perspectives, 36–40
  presence, 120, 130–131
  professional development programs, 131
Teaching, 4, 120
  experience, 126–127
  and learning, 85
  methods, 74–75
  new conceptualization of, 117–118
Technical capacity building, 38–39
Technological capacity building, 38–39
Technology, 9
  technology-based learning, 15–16
Telegram, 74
Tertiary students, 58, 60
Thematic analysis, 35
Themes asserted by participants, 129–130
3-way ANOVA test, 157–158
Traditional classroom teaching, 30

Traditional higher education institutions, 5
Training, 25
to faculty members, 67
needs for students and staffs on online teaching and learning, 37
Transformation, 6–7, 10
Trust, 119

21st Century's Higher Education, 117
2-way ANOVA test, 157

Universities, 5, 8, 71
University Grants Commission (UGC), 14, 16, 32
University of Tabish in Kabul, 77
University preparedness, 85
findings, 89–95
method of study, 87–89

Varimax rotation method, 63
Vice-chancellor (VC), 16

Web-based learning, 15–16
WhatsApp, 74
Willingness to borrow digital material, 161
Work–life balance, 21
World Health Organization (WHO), 4, 58
Wuhan District of China, 4

Zoom, 14, 33
