
Retraction notice: a novel federated learning based lightweight sustainable IoT approach to identify abnormal traffic

International
Journal of
Pervasive
Computing and
Communications

The publishers of Alharbi, Y. (2022), “A novel federated learning based lightweight sustainable IoT approach to identify abnormal traffic”, *International Journal of Pervasive Computing and Communications*, Vol. 20 No. 4, pp. 439-449. <https://doi.org/10.1108/IJPCC-03-2022-0119>

An internal investigation into a series of submissions has uncovered evidence that the peer review process was compromised. As a result of these concerns, the findings of the article cannot be relied upon. This decision has been taken in accordance with Emerald’s publishing ethics and the COPE guidelines on retractions.

Despite numerous attempts to contact the authors, the journal has received no response; the response of the authors would be gratefully received.

The publishers of the journal sincerely apologize to the readers.

The retracted article is available at: [10.1108/IJPCC-03-2022-0119](https://doi.org/10.1108/IJPCC-03-2022-0119)
