## **ACKNOWLEDGMENTS**

This volume is the result of the collaborative effort of The Rudolf and Valeria Maag INSEAD Center for Entrepreneurship and the W. Maurice Young Centre for Entrepreneurship and Venture Capital Research at the University of British Columbia with a fantastic group of scholars at multiple institutions around the globe. We want to thank all of the contributors for joining this volume, and contributing such a wonderful variety of inspiring work on emergence. The volume would not be possible without their ideas, collaboration, and hard work. We also would like to thank Michael Lounsbury for initially suggesting to put together a volume on emergence, and for guiding us through the process to make it a reality. We hope this volume will inspire ongoing research in the organizational theory of emergence.
